

Operation Never Forget

Founded in 2007 by:

Gregory Alan Howard,

Has been accepted as a part of the Congressional District Programs, a 501(c)(3), 509(a)(1) public charity, and shares its federal tax status (Tax Identification Number 65-0970090).

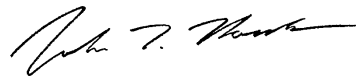

Our motto, "Empowering people to help people," is certainly embodied by Operation Never Forget. We applaud your charitable scope of work, namely:

To provide a source of healing to the families of our lost service members KIA, as the result of their participation in the war on terror. And to begin the process of building a strong alliance between the families of the lost, the military, their communities, and local and state governments. We would also like to honor these families and their lost loved ones with a "life-like, life-sized" bronze bust to display in their hometowns.

This is certainly an example of what programs at Congressional District Programs are trying to do: Restore, Maintain and Extend our national heritage of people helping others.
